

Assignment -3

Assignment Date	21 oct 2022
Student Name	Abitha.U
Student Roll Number	211419104004
Maximum Marks	2 Marks

Question-1:

1. Create a Bucket in IBM object storage.

Solution:

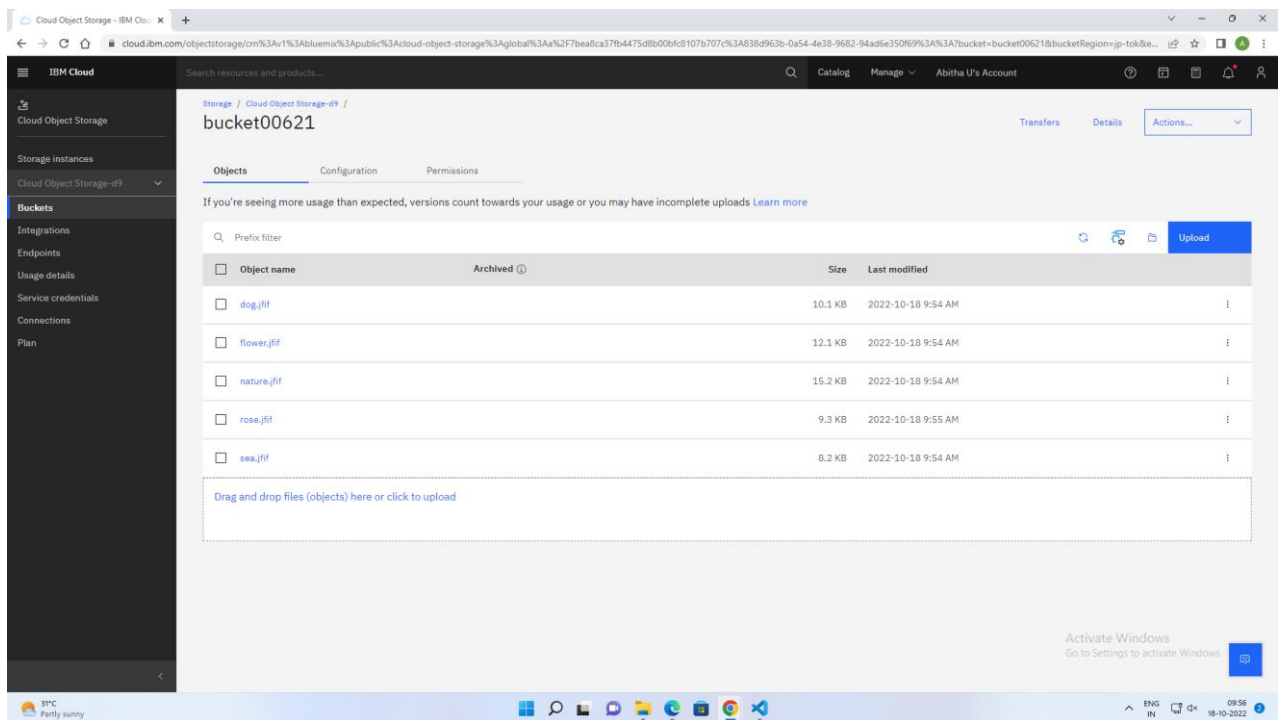

The screenshot displays the IBM Cloud Object Storage management interface. On the left, a sidebar contains navigation links: IBM Cloud, Cloud Object Storage, Storage instances, Cloud Object Storage-d9, Buckets (selected), Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area is titled 'Buckets' and includes a search bar and a 'Create bucket' button. Below this, a table lists the existing buckets. The table has columns for Name, Public access, Location, Storage class, and Created. One bucket is listed: 'bucket00621' with public access 'Yes', location 'jp-tok', storage class 'Smart Tier', and creation time '2022-10-18 9:46 AM'. At the bottom right, there is a 'Activate Windows' watermark.

Name	Public access	Location	Storage class	Created
bucket00621	Yes	jp-tok	Smart Tier	2022-10-18 9:46 AM

Question-2:

Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

Solution:

The screenshot displays the IBM Cloud Object Storage console interface. The left sidebar shows the navigation menu with options like Storage instances, Buckets, Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area shows the details for a bucket named 'bucket00621'. The 'Objects' tab is selected, displaying a table of five objects:

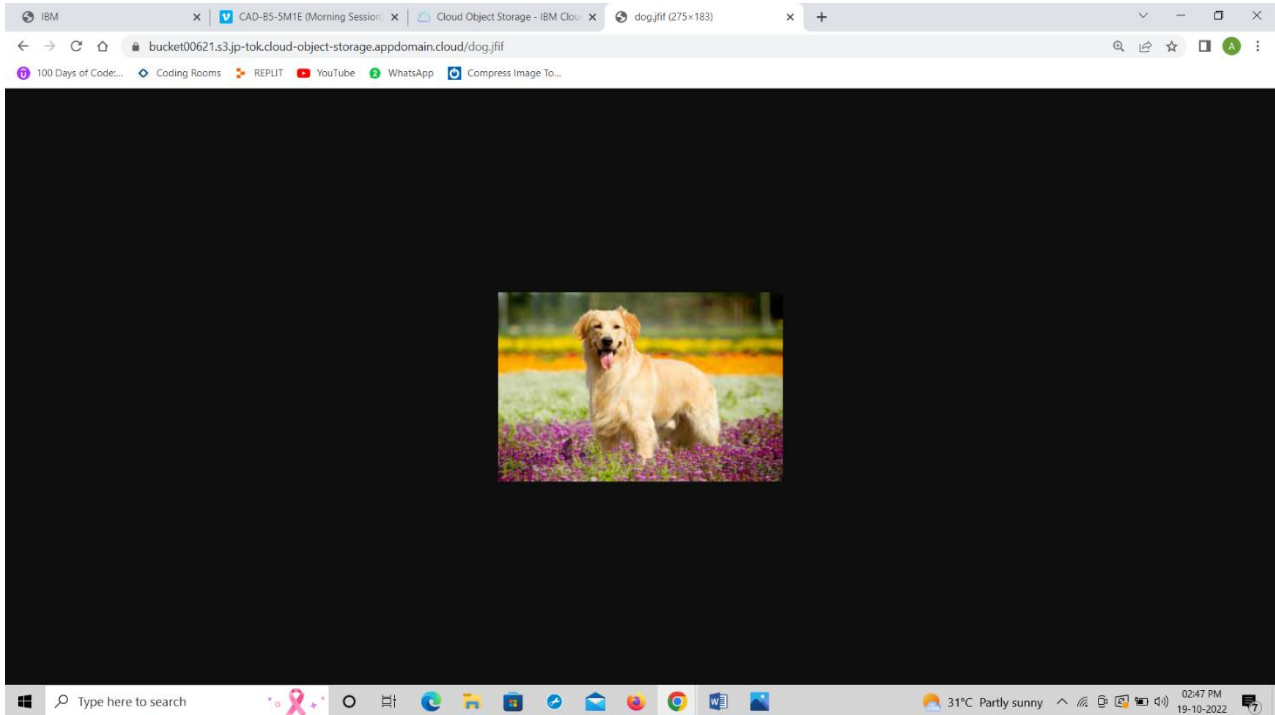

Object name	Archived	Size	Last modified
dog.jpg		10.1 KB	2022-10-18 9:54 AM
flower.jpg		12.1 KB	2022-10-18 9:54 AM
nature.jpg		15.2 KB	2022-10-18 9:54 AM
rose.jpg		9.3 KB	2022-10-18 9:55 AM
sea.jpg		8.2 KB	2022-10-18 9:54 AM

Below the table, there is a dashed box indicating where to drag and drop files. The bottom of the screen shows the Windows taskbar with the date and time as 09:56 on 18-10-2022.

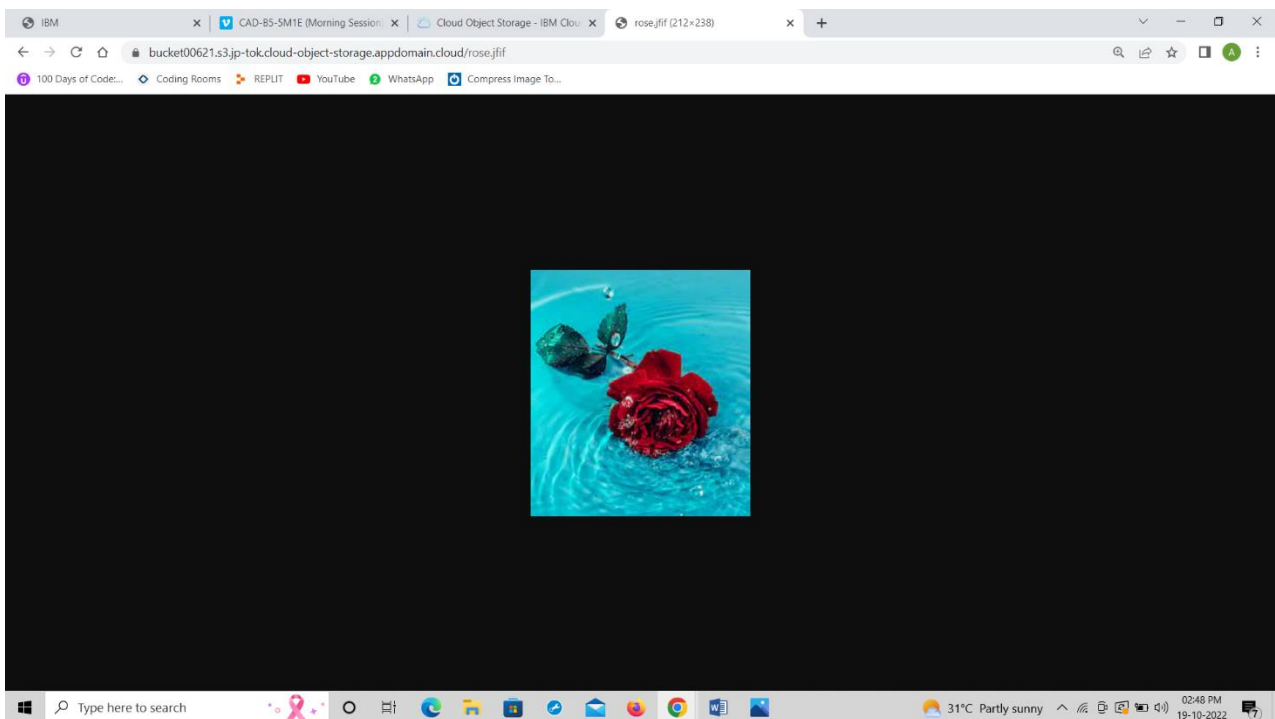

Question-3:

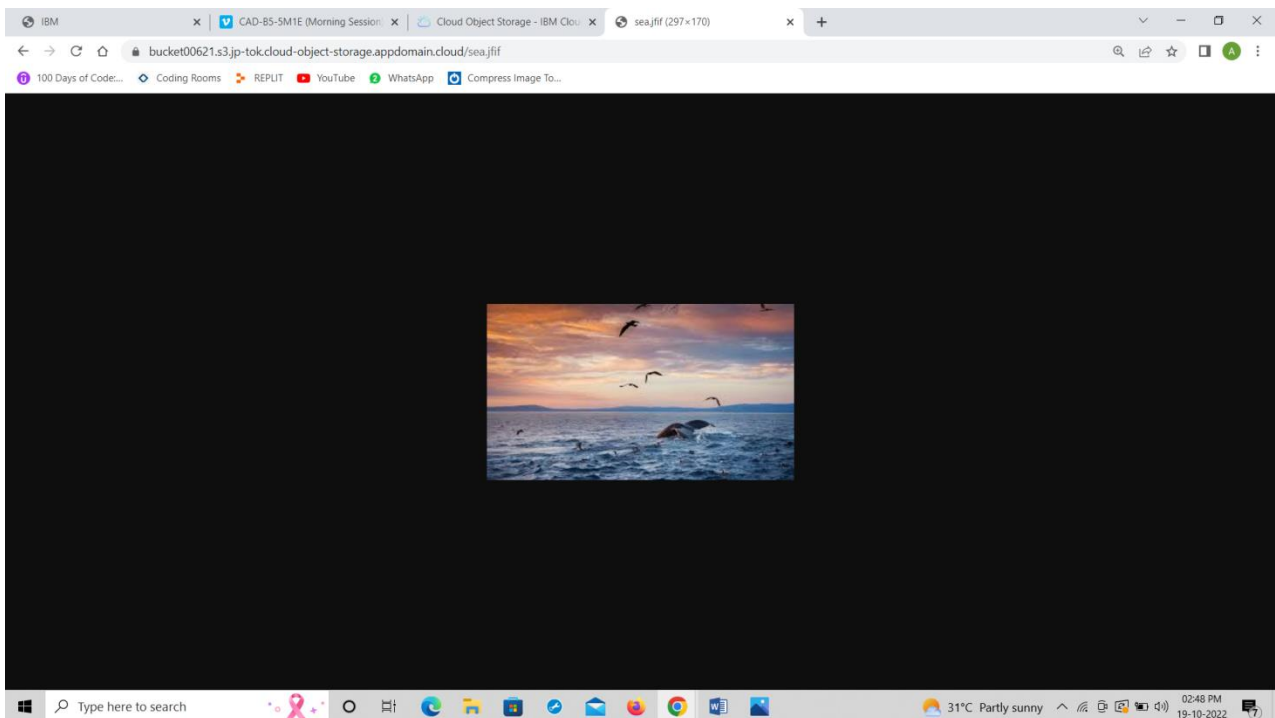

Upload a CSS page to the object storage and use the same page in your HTML code.

Solution:

Solution:

Question-4:

Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.

Solution:

<https://web-chat.global.assistant.watson.appdomain.cloud/preview.html?%20backgroundImageUrl=https%3A%2F%2Fjp-tok.assistant.watson.cloud.ibm.com%2Fpublic%2Fimages%2Fupx-fb0fc230-c189-48c4-a72e-a56adabb08a7%3A%3Ac84fec68-a9f9-47db-977f-%204c9a2a26db6a&integrationID=cf62501c-e9ca-43b8-b8ec-e7d7c67d5b24®ion=jp-tok&serviceInstanceID=576b6ffb-dc4a-46f5-a5bb-5ba46a582cc5>

Question-5:

Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page

The screenshot shows the IBM Watson Assistant console interface. The main heading is "Confirm an appointment". On the left, a "Conversation steps" panel lists 5 steps: 1. Make your appointment (Confirmation), 2. Patient ID (Use Number), 3. Patient Password (Free text), 4. Enter your mobile number (Regex), and 5. Please select appointment date (Date). Step 2 is highlighted. The main area shows "Step 2 is taken" with a condition: "If All of this is true: 1. Make your appointment is Yes". Below this, the "Assistant says" section shows a text input field for "Patient ID" and a "User enters a number" message. The "And then" section shows a "Continue to next step" button. A "Preview" button is at the bottom right.

The screenshot shows a web browser window with the address bar displaying "C:/Users/2019PECCS101/Desktop/chat.html". The page title is "Bot". The form contains two input fields: "First name:" and "Last name:", both with "cloud" and "bot" respectively. Below the fields is a "Submit" button.

HTML FORM

First name:

Last name:

If you click the "Submit" button, the form-data will be sent to a page called "action_page.php"

The screenshot shows a mobile app interface for "Watson Assistant". The chat history includes: "Healthbot" (Make your appointment), "Yes" (Patient ID), "00621" (Patient Password), and "abcd1" (Enter your mobile number). The input field at the bottom contains "Type something...". The app is built with IBM Watson.
